Account matures when the member turns 18 years of age.

Except as specifically described, the following disclosures apply to all of the accounts.

- 1. Rate Information:** The Annual Percentage Yield is a percentage rate that reflects the total amount to dividends to be paid on an Account based on the dividend rate and frequency of compounding for an annual period. For all accounts except the Promotional Savings, the Dividend Rate and Annual Percentage Yield may change monthly as determined by the Credit Union Board of Directors. The Promotional Account is a fixed rate Account for a specified period of time as determined by the Board of Directors.
- 2. Nature of Dividends:** Dividends are paid from current income and available earnings after required transfer to reserves at the end of the dividend period. The Dividend Rates and Annual Percentage Yield are the prospective rates and yields that the Credit Union anticipates paying.
- 3. Dividends Compounding & Crediting:** The compounding and crediting of dividends and dividend period applicable to each Account are set forth in the Rate & Fee Schedule. The Dividend Period is the period of time at the end of which an Account earns dividend credit. The Dividend Period begins the first calendar day of the period and ends on the last calendar day of the period.
- 4. Accrual of Dividends:** For all accounts, dividends will begin to accrue on non-cash deposits (e.g. checks) on the business day you make the deposit to your Account. For Savings, "Toon into Savings, Christmas Club, and Checking accounts, if you close your Account before accrued dividends are credited, accrued dividends will not be paid.
- 5. Balance Information:** The minimum Balance requirements applicable to each Account are set forth in the Rate & Fee Schedule. For Checking Accounts, there is a minimum actual daily balance of \$0 or above required to avoid a service fee for the dividend period. If the minimum actual daily balance is not met, there will be a service fee as set forth on the reverse side. For Savings, Christmas Club, and Checking accounts, there is a minimum Average Daily Balance required to obtain the Annual Percentage Yield for the dividend period. If the minimum average daily balance is not met, you will not earn the stated Annual Percentage Yield. For all Accounts using an Average Daily balance method, dividends are calculated by applying the periodic rate to the average daily balance in the Account for the period. The average daily Balance is determined by adding the full amount of principle in the Account for each day of the period and dividing that figure by the number of days in the period.
- 6. Account Limitations:** For all Accounts, refer to the Rate Schedule for applicable Account limitations.
